

April 12, 2000

To All Interested Parties:

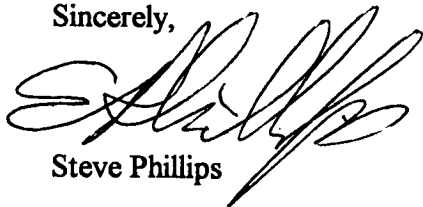

I'm enclosing a copy of the new proposed Draft Regulations for the Alabama Underwater Cultural Resources Act. This is totally ridiculous and wrong and affects all of us. If you would like to contact the people who have shoved this through the legislature, the address is:

Alabama Historical Commission  
468 South Perry Street  
Montgomery AL 36130-0900  
Attn.: Lee H. Warner  
Phone 334-242-3184  
Fax 334-240-3477  
E-mail [lwerner@mail.preserveala.org](mailto:lwerner@mail.preserveala.org)

I would appreciate your passing this info along and getting anybody who's interested to write these crazy bureaucrats in Alabama. This time they're claiming everything in the water, next time it will be anything in the air and anything else that they want. I really need other people to get involved in this.

Thanks for your help.

Sincerely,

Steve Phillips
