

Southern Skin Diver Supply

Founded 1953
The Oldest in the South

January 3, 2001

Dear Dive Centers:

As most of you are aware, a very restrictive act was passed two years ago called the Alabama Underwater Cultural Resources Act. These rules have not yet been determined, but the act is very bad. We have received some support from state legislators that they would sponsor the new wording we have proposed.

I enclose a copy of a more friendly version that would not hurt us as divers while still protecting everything in the state they want protected, such as shipwrecks and Indian burial sites.

I would sincerely appreciate your support and contacting the state legislators in your area. I would also appreciate having your divers, or other interested people, offer their support to protect their own rights.

Sincerely,

A handwritten signature in cursive script that reads "Steve Phillips".

Steve Phillips
