Dear Greg:

Thank you for informing us about the public meetings.

I would like to attend the public meetings you mentioned, but am too far away from Mobile and will be out of town for the Huntsville meeting. I have enclosed a copy of our proposed suggestions. The main suggestions I have are to make the regulations friendlier to encourage cooperation of divers with the historical commission and applicable only to shipwrecks or historical sites over 500 years old.

I think this would take care of everything that needs taking care of and would not involve the government too much with divers when not needed.

Thanks for your help.

Sincerely,

Steve Phillips
