October 7, 1999

Dear Ms. Brown;

I have written to you in the past regarding the new bill passed during the last legislative session concerning items found in state waters. I have not received any response from your office.

We are in the SCUBA diving business and dive in state rivers. There are several thousand divers in Alabama who dive in these same rivers and we all need to know where we stand right now.

If a permit is required, then we want one. We are constantly diving in state rivers and often find, rescue, and preserve relics.

Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Steve Phillips". The signature is stylized and cursive.
